AVIATION INFORMATION RESOURCES • FEBRUARY 10, 2006 • VOL. 15, NO. 2

## News Update

■ by Barbara Cima

In an effort to avoid a plethora of potential phone calls into AIR, Inc., I thought I would point out some changes that we have made to the *Airline Pilot Job Monthly*. First, let me preface this by saying that even though we are already one month into the new year, the February issue marks the beginning of 2006 for us because it contains the pilot hiring and furlough information for January. In order to keep our airline charts, statistics, and data accurate we waited until the beginning of the year to initiate these revisions.

Probably the first notable change you will recognize is a decrease in the number of major airlines reporting to AIR, Inc., down from 16 to 15. No—a legacy carrier did not fall off the face of the earth in the past 30 days. We have now combined US Airways and America West into one carrier—US Airways. Information for both airlines will be reported under one write-up. This *does not* mean that we will stop offering breakaway data for each airline. Until operations for both carriers are fully solidified into one company, we will offer separate news on both, should it arise.

You will also note that we now report on 173 airlines, not 194. Due to a decrease in consumer demand, we dropped the Helicopter division from the newsletter. The extra space this affords has already resulted in the additional of two new airlines, Emirates Group, a foreign carrier, and Central Air Southwest, a non-jet operator.

Quite a few of our readers are curious why Comair and ExpressJet—currently listed with the Department of Transportation as major airlines—are listed as national operators in the *Airline Pilot Job Monthly*. Although they both had annual sales over \$1 billion in 2005, they operate only regional jets. An airline must fly large cargo and/or passenger aircraft, in addition to having \$1 billion in sales, to be listed as a major carrier in the AIR, Inc. newsletter. We will, therefore, continue to list them in the national category.

Last year seven carriers increased their annual sales to over \$100 million. This enabled them to upgrade from jet operator to national airline.

## UAL Exits Chapter 11

United Airlines (UAL) won approval for its reorganization plan on January 20, which set the stage for its emergence from Chapter 11 on February 1. "The confirmation of our plan is clear validation of the work we have done to make United a sustainable enterprise with a strong financial and operational foundation," said CEO Glenn Tilton. UAL signed a 6-year, \$3 billion financing loan with JPMorgan, CitiGroup, and GE Capital, which included a \$300 million revolving line of credit and a \$2.7 billion term loan.

UAL is already projecting profits for the upcoming years. Their forecast included \$11.6 billion in net profits for 2006 (\$11.3 billion from reorganization items), \$517 million in 2007, \$749 million in 2008, \$826 million in 2009, and \$939 million in 2010. Current projections are based on crude oil prices averaging \$50 a barrel.

## Mesa News

Northwest Airlines' request for proposals to fly planes with up to 76 seats may have an interested party. Mesa Airlines CEO Jonathan Ornstein told employees he sees potential opportunities in the venture. Noting that Mesa is looking at new opportunities to diversify business, Ornstein said, "That's why the situation at Northwest is of great interest to us."

In other news, Mesa is still on target to launch an inter-island subsidiary servicing the Hawaiian Islands the first or second quarter of 2006. Plans are to start operations using four to six 50-seat regional jets. Ornstein said that he has gotten inquiries from two large jet operators who may be interested in entering a code-share agreement for the new service.

## Crude Oil Prices

Crude oil prices may rise to \$62 barrel in 2007, according to an estimate from the Raymond James energy team. In 2006, prices are expected to remain around \$58 per barrel.

## Virgin America Files Application

Virgin America filed its certification application with the FAA on January 19. It already filed with the Department of Transportation in December. "We would like to see the process accelerate in a reasonable time frame," said CEO Fred Reid. Reid added that unit costs would be 25%-50% lower than those of current legacy airlines. Virgin America anticipates launching transcontinental service later this year.

## Pilots Ratify Interim Contract

US Airways Express pilots at Piedmont Airlines ratified a tentative contract in January. The new deal on the table includes scheduling and reserve duty enhancements, additional vacation protection, and other quality-of-life improvements. The contract becomes amendable in May 2009.

## WORLD AIRWAYS

### Pilots Reach Tentative Contract

World Airways pilots, represented by the International Brotherhood of Teamsters, reached a tentative contract February 6 ending a nine-day strike. The agreement provides improvements in job security, retirement benefits, life insurance, wages and other benefits. "We are very happy that the company finally came back to the table to actually negotiate so that we could reach this agreement," said Captain Luis Carmona, Executive Council Chairman of the World Airways pilots' union. "We look forward to putting the details of this tentative agreement out to our pilot group for approval so that we can go back to flying for the premier ACMI (provides aircraft, crew, maintenance, insurance) carrier in the industry."

## FLEXJET

### Hiring 50-60 Pilots

FlexJet, a fractional ownership carrier, is hiring between 50 and 60 pilots in the next two months. Pilots interested in applying should have 2,500 TT fixed-wing, 500 ME, 500 turbine/jet, an ATP, and a Class I medical. Qualified applicants can apply online, submit their résumés by mail, fax at (972) 720-2473, or email to Karen.Parr@Aero.Bombardier.com.

- Florida West Int'l Airways (\$140+ million)
- Kalitta Air (\$308+ million)
- Miami Air International (\$121+ million)
- Omni Air (\$348+ million)
- Pinnacle Airlines (\$809+ million)
- US Airways/PSA (\$248+ million)

You may have some trouble locating Chautauqua Airlines, Shuttle America, or Republic Airlines. Since all of these carriers are subsidiaries of one parent company, Republic Airways, we thought it would make more sense to list them under their parent company. Republic Airways had over \$100 million in annual sales last year and will be listed in the national division. Please keep the following in mind if you are interested in applying to any of these airlines—all hiring is done through the human resource department at Chautauqua. Please review the write-up for the specifics on their application process.

The following two airlines—Kitty Hawk Aircargo and USA Jet Airlines—dropped below the \$100 million mark and are now listed in the jet operator division of the newsletter. Kitty Hawk currently has 82 pilots on furlough and is not hiring, so what I am about to say does not apply to them. USA Jet is actively recruiting and hiring pilots to fly their fleet of DA-20s and DC-9s and will continue to hire through 2006.

We are always striving to improve our publications at AIR, Inc. and meet the demands of our customers—you. But we won't fix it if it "ain't broke". The monthly charts featured in every newsletter are important key indicators of individual growth, possible pilot hiring increases—or furloughs—and the overall health status of the airline market. Also a mainstay in each edition is

information for the next AIR, Inc. Pilot Careers Seminar. Don't under estimate the power of attending! Prominent airlines such as AirTran, JetBlue, and Southwest view attendance as a plus in their book. Regional carriers like Air Wisconsin, CommutAir, and Pinnacle are known for offering on-the-spot interviews to qualified pilot applicants. And UPS and FedEx have a keen eye for remembering attendees when screening online applications.

Let the *Airline Pilot Job Monthly* be your portal into employment and you will be one step closer to achieving your career goals. Back issues of the newsletter are archived on our Website at www.jet-jobs.com.
